The share speculation Tuesday was but little less active than on Monday and again were the dealings distributed very widely over the list. The market for American securities in London was in good tone, and foreigners were buyers of almost all international stocks in the American market. Thus the trading opened under very auspiclous circumstances, and the trend of prices was upward throughout the mornng, the coal shares and the granger group ging most prominent in the upward movement as well as in the transactions. After midday realizing sales caused a reaction in which Sugar and Chicago Gas were most prominent. The heaviness was not of long duration, and shortly after 1 o'clock the buying movement was resumed and prices again took an upward turn. The market became irregular about delivery hour, bu during the last quarter of an hour of busi during the last quarter of an hour of business the speculation was again buoyant and prices continued to move upward to the close, the final dealings being decidedly strong in tone, and at or near the highest figures of the day. LOCAL GRAIN AND PRODUCE. Trade Better than Last Week, with

Strong Prices. ner there is a perceptible increase in trade over last week on the wholesale streets and on Commission row. Grocers are having a big trade, and March bids fair to be one of the best months in the history of South Meridian street. On Commission row the houses are handling a good many potatoes, oranges, bananas and other fruits and vegetables, and all along the line firm and steady prices rule. Eggs are weak at quotations and poultry steady. The flour market is more active, and prices, while not higher, are decidedly firmer. With the dry-goods houses trade is better. The hide market is more active, and an advance in prices likely to

occur in the near future. Hardware men report trade decidedly better and leather dealers report trade excellent. The local grain market is not as active as last week, still on corn prices are in strong last week, still on corn prices are in strong position. Wheat and oats are a little weak. A CONCESSION TO SMOKERS.

They May Smoke on North Illinois-Street Trailers-New Equipments.

A delegation of North Illinois-street residents called upon Manager McLean, of the Citizens' Street-railroad Company, yesterday, and asked that the trailers in use on that line be dedicated to the use of smokers. It was urged that the trailers were not used by the patrons generally, and the smokers that usually crowd on the rear platform of a motor car would comfortably fill a trailer. Manager McLean promised to fill a trailer. Manager McLean promised to give the matter consideration and last evening he decided upon an order to that effect. On all motor cars, to which trailers are attached, sinoking will be prohibited, either within or on the platforms. Where there are closed trailers they alone are to be for smokers. Mr. McLean thinks this will be an improvement over the present arrangement. It will put smokers by themselves ment. It will put smokers by themselves and women and children will not be compelled to force their way through a crowd of platform smokers in order to enter a car. Mr. McLean says little complaint is heard from less patronized lines and he anticipates the order will go far toward silencing all complaints. The date of the enforcement of the new order has not yet been fixed.

What to do with the platform smokers has been one of the most perplexing questions with which the company has had to deal. Complaints pour into the company's office regarding the crowds that congregate on the platforms. For some time the officials of the company have been considering a propo-sition to prohibit smoking on all cars, but no action has been taken. As trailers are in use upon the lines dpon which there has been the most complaint, the new order is hoped to make a more stringent and general order unnecessary. The motor equipments for ten new cars are expected to be ready in a few days, and all the lines will be benefited by the addi-

CHICAGO BEARS SUCCEEDED IN KNOCKING OFF 1-2C FROM MAY.

Both Corn and Oats Were Strong and Higher, but Provisions Suffered a Final Loss.

CHICAGO, March 19,-Urged by a moderate decrease in the world's supply and easy cables the bears pounded wheat down another half cent to-day, May closing that much lower. Corn was stubbornly and independently strong, gaining 4c for May, and May oats followed with 4c gain. Provisions were weak, closing at declines.

There were plenty of sellers of wheat at the opening at from 56% down to 55%c, and very few buyers at above the lower of these quotations. The reason for the weakness was made up of the kneading together of the foreign news and a slight sprinkle of rain along the southern edge of the winter wheat belt in this country. Liverpool was quoted 4d lower. The Minneapolis and Duluth receipts were again in excess of the number of cars reported on the corresponding day of last year, being 376 cars to-day to 257 last year. Primary market receipts to-day were 310,000 bu, against 279,000 a year ago. The only bullish feature of the day's movement was the heavy export clearances of wheat and flour from the Atlantic seaboard, which amounted to 450,000 bu. That strained the market at around 56c and 56%c during the greater part of the forenoon, up to about the time when Bradstreet's report is received. After the latter report came in the price yielded again latter report came in the price yielded again and 55½c became the trading price for a few seconds on that noon break. Bradstreet's visible showed decreases east and west of the Rocky mountains amounting to 1,894,000 bu, while in Europe and afloat there was an increase of 848,000 bu, leaving a net decrease of 1,046,000 bu in the world's stocks against 1,940,000 bu decrease in the same time a year ago. The Russian crop of last year, it was reported had been

of last year, it was reported, had been again officially estimated, making 74,000,000 bu larger than previous estimates, but the later commercial advices from Europe were that Russian wheat was scarce and held at that Russian wheat was scarce and held at Russian ports above its spring value. The closing cables quoted weakness and a slight decline at Liverpool, a slight advance in wheat at Paris, no change in values at Antwerp, but 2 marks decline at Berlin. There was an increase of activity after Bradstreet's report came in, and during the time declined to 55½c; after recovering again to 55½655%c it became weak and remained so to the end, closing at 55%c.

The corn market set an example of bul-The corn market set an example of bullishness which was again the envy of its bigger neighbor. It was kept down by the bearishness of the latter early in the day, but asserted a stubborn independence after a slight decline, and was soon holsted. The opening relations was a first the contract of the state of the stat opening price for May was 46%c, it declining gradually to 46%946%c, and then advanced steadily to 47%c. It weakened at the latter price and sold down to 46%c, but found plenty of buyers on that reaction. found plenty of buyers on that reaction. Primary market receipts amounted to J82,-000 bu, compared with 503,000 bu a year ago. The reports from the interior of this State are that Baltimore and St. Louis buyers are paying 3 cents over Chicago for No. 3 corn and shipping it to Baltimore and Newport News, thus prospectively curtailing receipts at Chicago. The demand for carloads to go to store was particularly active at an advance of from 1/2 to 1c per bu. The May futures rose before the close to 474/0/47%c and closed at 47%c.

and closed at 474c.
Oats experienced a fairly active session.
At the opening values were a shade firmer and selling became quite general. Bartlett-Frazer were principally prominent.
This firmness in corn, however, soon put it back on its feet. It went from 29%c to 29%c, sold up to 29%c, and closed at that

Provisions went down from the start. From \$11.90 and \$11.92½ May pork kept on the slide until it could be bought for \$11.57½. It then became firmer and recovered a little, but touched \$11.55 before making any permanent improvement. After recovering to \$11.80 it closed at \$11.70, a loss of 25 cents. Lard closed .65c and ribs .12½c lower. There was some raiding by Baldwin, and the expectation of heavy hog receipts aided in the decline. Provisions went down from the start. n the decline. CHICAGO, March 19.—In cattle the total of all descriptions was barely 3,000, and there were only here and there a bunch that by any possible stretch of the imagination would grade better than medium. The tion would grade better than medium. The inquiry was better than was expected for Tuesday and there was an undercurrent of Tuesday and there was an undercurrent of great firmness. There are no indications of any decided increase in the arrivals, and, therefore, the trend of the market is still upward. Steers were quoted at \$4@6.35, cows and heifers at \$1.60@4.75, stockers and feeders at \$2.60@4.50 and Texans at \$2@5.

The hog market was weak and the average was 5c lower than for yesterday. The change in prices were the best, shippers paying close to Monday's prices. After they had filled their orders and sellers were obliged to look to local packers the market was very steady. Sales were principally at obliged to look to local packers the market was very steady. Sales were principally at \$4.35@4.65 for averages over 200 lbs and \$4.40 @4.45 were the prices most frequently paid for lighter weights. At the close \$4.70 was the top for heavy and \$4.55 for light weights. The weak turn in the market is explained by the break in provisions.

There was a good demand for sheep and lambs at about steady prices. Sheep sold lambs at about steady prices. Sheep sold principally at \$3.50@4.40, with \$2.75@4.25 the range of quotations. THE INDIANAPOLIS

Daily, Sunday And Weekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana Public-

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquainted with the local usiness and political issues.

It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled.

As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
